 - ii. Meeting was great – group was very receptive.
 - iii. Next steps:
 - 1. Request for OHPAT to design a flyer with signs and symptoms during pregnancy (inflammatory response), Risks to mom and baby if oral health isn't a priority during pregnancy/What if's...(no dental care what happens, etc) – explain outcome of pregnancy being low birth weight and preterm birth, dental care during pregnancy is safe including x-rays and anesthetic, resources
 - 2. Educational video/powerpoint for staff to use to help with patient questions (possible CE)
 - 3. Video or presentation for couples in maternity classes
- 5. Community Health Assessment (CHA)/ Community Health Improvement Plan (CHIP)
 - a. Review goals and objectives from CHIP
 - i. Most focus is on low income/badgercare and dental care not being affordable
 - ii. The new sign/referral list targets over ½ of the comments and issues per Sara
 - iii. February – use dental drawings from children and give to the schools; Debbie to utilize CVTC students and do a presentation on dental information to use at schools; Debbie to schedule a day with the schools to plan
 - 1. Use a soda display with amount of sugars
 - a. Katie proposed using “healthy”, low fat, diet food options and amount of sugar instead of sodas to show that they still have a lot of sugar in them
 - 2. Video: “That sugar film” Sara will send the documents, video is available on Netflix and we could request DVD
